

The Young Ambassadors of the Children's Hope Foundation was, with the help of the charity's Chairman Mrs Seema Kumar, formed by and is made up entirely of children aged 9 to 15 with each having a different role to play. At their first official meeting several children were elected by the group to key positions within the committee. They are;

Sienna Parekh—Chairman ;

Aaron Parti—Deputy Chairman ;

Suhavi Kapoor—Secretary ; Tiana Parti—Treasurer ;

Talya Samji—Charity Co-ordinator ; Saihaj Kapoor—Sports Co-ordinator.

This group meet regularly to look at how best they can help Children's Hope Foundation and to keep track of the group's activities to raise funds for the charity.

Being an elected member of her school council at 'North London Collegiate School', Sienna proposed that the school support Children's Hope Foundation and we are hugely grateful that this was accepted. Her words, below are an inspiration to all young people;

"This charity is a wonderful organisation which changes the lives of children less fortunate than us. As I get older I would really like to make something of my life and be able to improve the quality of life for underprivileged children. It would be great if our school could raise enough money to help us make these dreams come true. Every day on TV we see children all over the world affected by war, suffering things that we cannot imagine and there does not seem to be an end to this.. It's not the kids fault, we can't change these situations but we can help. I know that our very generous school will do whatever it can to make a difference, even if it is only one child's life, that is still one child who suffers less."

The 'Young Ambassadors' are free to organise their own events at times that suit them, providing of course, that these events do not interfere with their school work. They have the fullest support of the charity and we will continue to assist and encourage them in achieving their goals. Events can take many forms including; sports days, fashion shows, cake sales, family days out and special events like Halloween and Christmas. Our young people are very talented and we will always acknowledge their efforts with certificates in recognition and encouragement. These young people and all those who join them are an inspiration and to be commended. We are sure they will grow into kind, generous individuals, giving, sharing and appreciating that, not all children have a good start in their young lives.

**We are delighted to announce that we have been chosen by  
Fit4Less by Energise as their charity of the year for 2014**

Ethan is like most boys of his age, who likes to play with his friends, enjoy all of the things that boys of his age normally do. However, Ethan suffers from Duchenne Muscular Dystrophy, which is a gradually debilitating and life limiting condition which meant he was unable to.

When we heard about Ethan and spoke to

his parents, it was clear that a motorised trike was both his and their dearest wish. So, funds were provided by Children's Hope Foundation and through the company Quest 88 Ltd, the trike was designed and assembled around Ethan's needs. Now he can join in in most activities.

Rhianna, as you can see, is severely disabled and is unable to walk, relying on her mum and those around her to help. She did though love her adventure holiday in Exmoor. We hope, through your generosity, to be able to send Rhianna and many more children like her to the same camp, or other similar camps, next summer.

Because of the wonderful public support we receive, we have now purchased a holiday caravan based in Camber Sands, East Sussex which will allow us to provide much needed respite breaks for disadvantaged children along with their families. We hope also, in the

future, to expand this service to include holiday homes in other parts of the UK. If you know a child or family who might benefit through Children's Hope Foundation,

**In 2009/10 we were chosen as charity of the year by  
Imperial College Medical School RAG**
